Senior Backend Software Engineer | .NET Architect | Tech Lead

Senior Software Engineer and .NET Architect with 13+ years of experience designing, developing, modernizing, and maintaining enterprise software systems. Strong background in C#, .NET, .NET Core, ASP.NET MVC, Entity Framework, REST APIs, SQL Server, Oracle, PostgreSQL, MongoDB, Azure, Azure DevOps, CI/CD, Clean Architecture, microservices, API integrations, and distributed software architecture.

Experienced in leading technical teams, defining backend architecture, building scalable services, integrating cloud-based systems, improving maintainability, reducing technical debt, and supporting enterprise platforms across backend, web, mobile, and cloud environments. Postgraduate in Distributed Software Architecture and Master's degree in Artificial Intelligence in Healthcare.

Technical Skills

Backend: C#, .NET, .NET Core, ASP.NET MVC, Entity Framework, Entity Framework Core, REST APIs, Windows Services, Backend Services, Integration Services.

Architecture: Distributed Software Architecture, Microservices, Clean Architecture, Layered Architecture, Solution Architecture, Software Architecture, Software Design Standards.

Cloud and DevOps: Azure, Azure DevOps, DevOps, CI/CD, Cloud-based Applications, Cloud Integration, Git, GitLab, fastlane.

Databases: SQL Server, Oracle, PostgreSQL, MongoDB.

Frontend and Web: Blazor, Angular, React, JavaScript, HTML, CSS, Bootstrap, jQuery, WebForms, Classic ASP.

Mobile: Xamarin, Xamarin.Forms, Xamarin.Android, .NET MAUI, Flutter, Dart, Apache Cordova, React Native, Android, iOS.

Tools and Practices: Jira, Visual Studio App Center, HockeyApp, Syncfusion, Here Maps SDK, Google Maps, Agile, Scrum, Code Review, Technical Documentation, Testing, Incident Management.

Professional Experience

Architect

IT Sector

06/2025 - Present

- Led the architecture and implementation of cloud-based applications, improving scalability, security, and maintainability across enterprise systems.
- Designed and guided microservices-based architecture initiatives, supporting modular services, better separation of responsibilities, and scalable system evolution.

- Applied DevOps practices to support continuous integration and continuous delivery across multiple environments.
- Established software design standards, coding practices, and architectural guidelines to improve consistency and reduce technical debt.
- Worked closely with business stakeholders to translate business needs into technical requirements, architecture decisions, and implementation strategies.
- Supported engineering teams in backend design decisions, integration patterns, deployment practices, and long-term maintainability.

Technologies Used: C#, .NET, Azure, Microservices, Cloud-based Applications, DevOps, CI/CD, Software Architecture, Solution Architecture, Distributed Systems, Software Design Standards, Agile.

Senior Software Engineer / .NET MAUI Developer

BeHighLoad - SSI

01/2025 - 07/2025

- Worked on the modernization of a complex international logistics application with more than 60 screens and advanced business logic.
- Migrated enterprise applications from Xamarin.Forms to .NET MAUI, ensuring codebase compatibility, performance optimization, and long-term maintainability.
- Refactored legacy architecture to comply with modern .NET MAUI guidelines and improve scalability.
- Collaborated on integration between application layers, backend services, and business workflows to ensure system continuity for global users.
- Developed reusable components and custom controls tailored to business requirements.
- Implemented new features and optimized existing functionality, improving performance across cross-platform mobile and desktop environments.
- Used Jira and Agile practices for task management, sprint execution, backlog delivery, and collaboration with distributed teams.

Technologies Used: C#, .NET, Xamarin.Forms, .NET MAUI, Syncfusion, Cross-platform Development, Mobile Development, Desktop Applications, Backend Services Integration, Jira, Agile, Software Architecture, Performance Optimization.

Tech Lead

Xpand IT

12/2021 - 01/2025

- Led the design, development, and modernization of scalable enterprise solutions using .NET, Blazor, Xamarin, .NET MAUI, and Azure.

- Designed and implemented microservices infrastructure to improve performance, scalability, maintainability, and integration across systems.
- Developed modern web applications with Blazor, integrating frontend components with backend services and enterprise APIs.
- Supported cloud-based solution design using Azure services, DevOps practices, and CI/CD pipelines.
- Led technical planning, solution design, architectural reviews, and delivery coordination across cross-functional teams.
- Mentored developers and promoted best practices in Agile delivery, DevOps, CI/CD, code quality, and software architecture.
- Balanced hands-on development with architectural leadership, ensuring technical solutions aligned with business goals and long-term platform strategy.
- Worked on Sitecore integrations with cloud services, supporting digital platforms and content-driven enterprise solutions.

Technologies Used: C#, .NET, .NET Core, Blazor, Xamarin, .NET MAUI, Azure, Azure DevOps, Microservices, REST APIs, Backend Services, Enterprise APIs, Sitecore, DevOps, CI/CD, Agile, Software Architecture, Solution Architecture, Distributed Systems.

Mobile Architect / Software Engineer

Glic

01/2018 - 06/2022

- Worked on healthcare software systems focused on diabetes management, contributing to application architecture, feature design, backend integration, and system modernization.
- Designed and maintained application architecture to support reliability, maintainability, and performance in a healthcare context.
- Built and modernized web applications using Blazor, creating interactive user interfaces integrated with backend services.
- Performed technical analysis of new features, evaluating implementation options, integration needs, and long-term maintainability.
- Planned and designed new functionalities aligned with business requirements and user needs.
- Managed legacy code and progressively modernized components to improve reliability and system evolution.
- Collaborated with cross-functional teams to deliver solutions addressing specific customer needs and healthcare workflows.

Technologies Used: C#, .NET, Blazor, Backend Services, APIs, Web Applications, Healthcare Software, Legacy Systems, Software Architecture, Solution Architecture, Mobile Architecture, Agile, System Modernization.

Xamarin Developer / Software Engineer

Bee Engineering

05/2021 - 11/2021

- Developed a new social network application using Xamarin.Android and Blazor, contributing to both application functionality and backend integration.
- Designed and implemented Android application features while supporting complementary web features and administrative panels.
- Integrated APIs to provide secure and consistent user experiences across mobile and web clients.
- Collaborated with the product team to define, refine, and implement features across mobile and web platforms.
- Supported scalable solution design to accommodate growth and future application updates.
- Participated in testing, troubleshooting, code reviews, documentation, and continuous improvement of development processes.
- Worked with cross-functional teams to ensure integration between Android applications, Blazor web features, and backend services.

Technologies Used: C#, .NET, Xamarin.Android, Blazor, Android, REST APIs, Backend Services Integration, Web Applications, Mobile Applications, Testing, Code Review, Documentation, Agile.

Mobile Architect

Qualitab

10/2019 - 11/2021

- Designed and implemented mobile application architectures using Flutter.
- Maintained and updated existing mobile applications developed with Flutter and Apache Cordova.
- Defined and implemented DevOps strategies to streamline mobile application development and release processes.
- Supported mobile solution architecture, application maintenance, and continuous improvement.
- Worked with development teams to improve delivery practices and application scalability.

Technologies Used: Flutter, Dart, Apache Cordova, React, Git, GitLab, fastlane, DevOps, Mobile Application Development, Mobile Solutions, Software Architecture, Agile.

Tech Lead / Developer Specialist

SGA Tecnologia Inteligente

06/2020 - 05/2021

- Led development initiatives for insurance systems involving frontend, backend, mobile, and cloud-based services.
- Developed backend and application components using C#, ASP.NET MVC, Entity Framework, SQL Server, Oracle, and Azure.
- Designed a cloud file backup tool involving frontend, backend, and Windows service components.
- Created architectural designs for integration tools connected to cloud resources.
- Applied Clean Architecture principles to improve separation of concerns, maintainability, and scalability.
- Supported publication and deployment of applications using Azure and Azure DevOps.
- Introduced Agile practices and contributed to development process improvements.

Technologies Used: C#, .NET, ASP.NET MVC, Entity Framework, Entity Framework Core, Xamarin, SQL Server, Oracle, Azure, Azure DevOps, Windows Services, Clean Architecture, Cloud Integration, Backend Development, Frontend Development, Mobile Development, Agile, Software Architecture.

Senior Software Engineer

Techedge Brasil

02/2020 - 06/2020

- Collaborated with product teams to translate business requirements into technical solutions.
- Designed and implemented new features, integrations, and improvements for enterprise applications.
- Participated in code reviews, quality assurance, incident analysis, and technical documentation.
- Supported continuous integration and deployment practices to improve delivery efficiency.
- Worked with external APIs and third-party integrations to ensure reliable data synchronization and system interoperability.
- Monitored technology trends and recommended improvements to support product evolution.

Technologies Used: C#, .NET, Xamarin.Forms, APIs, Third-party Integrations, CI/CD, Code Review, Quality Assurance, Technical Documentation, Incident Management, Agile, Software Engineering.

Senior Development Analyst

FIELD CORP

07/2019 - 02/2020

- Designed and implemented scalable application architectures for whitelabel solutions.
- Developed mobile applications using best practices to ensure robustness and scalability.
- Integrated applications with external SDKs and APIs, including mapping and location-based services.
- Promoted and implemented Agile practices to improve development process, collaboration, and project outcomes.
- Contributed to architecture decisions focused on robustness, scalability, and client-specific customization.

Technologies Used: C#, Xamarin, Visual Studio App Center, Here Maps SDK, Google Maps, Road Traffic, APIs, Mobile Application Architecture, Whitelabel Applications, Agile Methodologies, Software Architecture.

Software Architect

Reply

08/2018 - 08/2019

- Worked as Software Architect on web and mobile application projects for payroll-focused systems.
- Designed web application architecture using C#, ASP.NET MVC, Angular, Oracle, and SQL Server.
- Applied layered architecture principles to improve maintainability and separation of responsibilities.
- Supported Agile adoption and architectural planning across development teams.
- Contributed to enterprise application development using .NET, Angular, Xamarin, and React Native.

Technologies Used: C#, .NET, ASP.NET MVC, Angular, React Native, React, Xamarin, Oracle, SQL Server, Layered Architecture, Web Application Architecture, Mobile Application Architecture, Solution Architecture, Agile Methodologies.

Senior Analyst Xamarin

Grupo Mult

08/2017 - 08/2018

- Designed application architecture and implemented solutions involving maps, APIs, SQL Server, and mobile integrations.
- Developed applications focused on mapping features and location-based functionality.
- Implemented UI and UX concepts in mobile applications.
- Supported mobile application publication and deployment processes.
- Applied Agile practices to improve collaboration and delivery.

Technologies Used: C#, Xamarin, Prism, SQL Server, HockeyApp, Maps, APIs, UI/UX, Mobile Application Architecture, Mobile Application Development, Agile.

Teacher / Instructor

Cotemig College

01/2018 - 02/2018

- Delivered training on mobile development concepts using Xamarin.
- Taught navigation, UI controls, databases, API services, mobile integrations, maps, GPS, and push notifications.
- Presented practical development examples and helped students understand mobile application architecture.

Technologies Used: C#, Xamarin, APIs, Databases, Maps, GPS, Push Notifications, Mobile Development, Application Navigation, UI Controls.

Software Engineer

CI&T

08/2014 - 01/2017

- Developed and modernized a postgraduate courses web platform, migrating from classic ASP to ASP.NET MVC.
- Implemented layered architecture to improve maintainability and support backend evolution.
- Worked on backend and web application components using C#, WebForms, ASP.NET MVC, and Oracle.
- Collaborated with cross-functional teams to improve application usability, functionality, and reliability.
- Developed responsive web interfaces and improved the overall user experience.

Technologies Used: C#, Classic ASP, ASP.NET MVC, WebForms, Oracle, HTML, JavaScript, CSS, Bootstrap, jQuery, Layered Architecture, Web Applications, Backend Development.

Education

Master of Artificial Intelligence in Health

Centre European Master's Programme

10/2023 - 09/2024

Postgraduate Degree in Distributed Software Architecture

PUC Minas

01/2017 - 01/2019

Bachelor's Degree in Information Systems

Southern Minas University Center

01/2010 - 01/2017

Information Technology / Information Systems

Estacio

01/2010 - 01/2014

Electromechanical Technician

Centro Federal de Educacao Tecnologica de Minas Gerais

01/2005 - 01/2007

Certifications

EF SET English Certificate 48/100 - B1 Intermediate

Software Architecture Fundamentals - desenvolvedor.io

Xamarin Certified Mobile Professional

Microsoft Participation Certificate - Basic Xamarin Marathon

ChatGPT for Python + 7 Real Python Projects with ChatGPT AI - Udemey

Microsoft Certification 70-480: Programming in HTML5 with JavaScript and CSS3

Microsoft Certification MB2-876: Extending Microsoft Dynamics CRM 2011

Languages

Portuguese: Native

English: Professional

Community and Volunteering

Speaker - Xamarin Summit 2019

Board Member - Random Hacks

Speaker - Squadra Digital

Speaker - Xamarin Dev Day BH

Speaker - COTEMIG - Colegio e Faculdade

Speaker - Faculdade Estacio de Sa de Belo Horizonte
